The SIDI motors have a real problem with the pcv systems. I have done 3 of the 2.4l piston replacement jobs in the last month or so. Not the exact same motors but similar enough to draw some basic conclusions from. my rear brake line is leaking. all other lines are good. I plan to buy the ez bend lines and replace from abs back to split. There is a fitting that connects to a rubber line. just inside drivers rear wheel.
