The Shadow line features motorcycles with a liquid-cooled 45 or 52-degree V-twin engine ranging from 125 to 1,100 cc engine displacement. The 250 cc Honda Rebel is associated with the Shadow line in certain markets. Honda introduced the US market to the Shadow line in 1983 with the Shadow VT500 and Shadow VT700. The Japanese version of the 1984 Shadow was actually 750cc but heavy tariffs imposed to protect the sales of large American V-Twins forced Honda to reduce the bore to 699cc. Always remember to review your Motorcycle Owner's Manual before you ride. Before each ride, take time to check all your equipment. Always wear an approved helmet, eye protection, long-sleeved shirt, long trousers, gloves and boots.
