The American Civil War (also known by other names) was a war fought in the United States from 1861 to 1865, between the North and the South. The Civil War is the most studied and written about episode in U.S. history. Primarily as a result of the long-standing controversy over the enslavement of black people, war broke out in April 1861 when secessionist forces attacked Fort Sumter in South ...Adams, Frederick Upham Born in Boston, Mass. on 10 December 1859; died at Larchmont, New York on 28 August 1921. In 1892 he published a treatise on atmospheric resistance and its relation to the speed of trains which led the Baltimore & Ohio Railroad to build a prototype which was tested in 1900, but failed to achieve the speeds predicted. Before the Civil War, the armies tended to be small, largely because of the logistics of supply and training. Musket fire, well known for its inaccuracy, kept casualty rates lower than they might have been. The advent of railroads, industrial production, and canned food allowed for much larger armies, and the Minié ball rifle brought about much higher casualty rates.
