We have a Sofia Bianchi super automatic at work. It looks very much like a standard commercial espresso machine where the group heads were replaced with a super auto mechanism. Water delivery goes through a decently sized boiler via a heat-exchanger and the machine has the same steam and hot water wands as the semi auto models. Brewing group however is made out of... The user must follow the instructions for use and maintenance given in this manual at all times. In case of doubt or of anomalous functioning, turn off the machine, refrain from making any repairs or intervening directly and contact the service centre. The user must not: • Touch the hot parts or dispensing parts of the machine

Super automatics are renowned for making espresso that is considerably less full bodied compared to their manual counterparts. For this reason if you lessen the amount of coffee used (while it might reduce your \$'s per cup costs) it will produce a less than desired, watery and weak brew.
