The Office of Clinical Research is a central office in the Perelman School of Medicine designed to support the management and conduct of clinical research while promoting compliance. Epic is an Electronic Health Record (EHR) used in hospitals all over the country. If you work in healthcare you know who they are. Epic is the top EHR system in the U.S. and they continue to gobble up market share. According to the Epic website, the pharmacy information system (PhIS) inside Epic is officially known as the “Willow Inpatient Pharmacy System”.²

Secure Buy-In from Nurses After securing hospital leadership support, your next step is to gain support from nurses, who are critical to successfully establishing Fall TIPS on the floors.

Inventory of Evidence-Based Practices (EBPs) for Healthy Start Programs. Evidence-based practices include actions, activities, strategies, or approaches that improve the health of women, before, during, and after pregnancy in order to improve birth outcomes and give infants up to age two years a healthy start.
