

Download Gaf 3100s Super 8 Sound Projector

Serving Photo Collectors Since 1969 [Link to Craig's Daguerreian Registry \(Research on American Photographers 1839-1860\)](#) e-mail address: craigcamera@outlook.com PLEASE NOTE: Dual 8mm projectors, that can run both 8mm and super-8 / single-8 film, tend to sacrifice performance and film safety. For this reason I have never cared for most of them and will usually not have any for sale here.
