

# Download How To Focus When Trading And Learn How To Trade Like A Pro

Stop loss placement is perhaps not the most glamorous of trading topics to discuss, but it is a critically important one. If you do not know how to properly place your stop losses you will be in for a very, very rough ride as you trade the markets. Essentially, for a trader, everything hinges on proper stop loss placement and risk management. I get emails almost every day from people asking me questions on how to properly identify and draw support and resistance levels on their charts. This tells me there's a lot of confusion and probably misinformation out there about support and resistance levels and how best to draw them. Price action trading and candlestick patterns are probably the most commonly used concepts of technical analysis. At the same time, there are lots of misconceptions and half-truths floating around which cause confusion and wrong trading decisions. In this article, I talk about the 5 best candlestick ... So why trade with us? Learn how to trade stocks like the pros and start getting positioned into breakout stocks before the big move. Why Trade Alone?
