Jeep Wrangler Rubicon. The Jeep Wrangler Rubicon hit the market in 2003. The Wrangler Rubicon is essentially a Jeep Wrangler TJ that comes loaded with some extra offroad options such as: Dana 44 axles front & rear, air lockers front & rear, 4:1 low-range transfer case, 31" tires, 6 cylinder engine, cool rims, and few more cosmetic features. Boulders, river crossings and mud baths all have a way of cleansing the soul and reminding you of what really matters. With exceptional capability and a go-anywhere-anytime attitude, the off-road-ready Rubicon will take you further than you ever thought possible. Our 2018 Jeep Wrangler Rubicon Unlimited Review puts the off-road icon to the test – on both tricky terrain and trafficked tarmac. A Trail Rated badge is earned by Jeeps that pass testing for Traction, Water Fording, Maneuverability, Articulation & Ground Clearance. Explore these tests.
