The following principles are fundamental to the design and implementation of effective interfaces, whether for traditional GUI environments, the web, mobile devices, wearables, or Internet-connected smart devices. The Law reviews are high-quality, hard-back books published annually by Law Business Research Ltd. The contributors to the series are carefully selected local experts in their fields of practice. In the United States, net neutrality, the principle that Internet service providers (ISPs) treat all data on the Internet the same, and not discriminate, has been an issue of contention between network users and access providers since the 1990s. To elucidate the term "net neutrality", one can apply a metaphor that was given and illustrated by Michael Goodwin: In his illustration, he ... Law is a system of rules that are created and enforced through social or governmental institutions to regulate behavior. It has been defined both as "the Science of Justice" and "the Art of Justice". Law is a system that regulates and ensures that individuals or a community adhere to the will of the state.
