

# Download Peritoneal Dialysis Training Manual

This is the home dialysis I am being set up for. I can't wait to actually start using it full time because it is continuous I shouldn't have the lack or the brick wall that I do hit. Nurse and doctor training a peritoneal dialysis patient To create compliance and confidence for patients at home such as those on Peritoneal Dialysis or Home-Hemodialysis it is essential to ensure a training programme which meets the individual needs and learning ability of your patients.6 Training Manual 1. Preparation Place the disposables and auxiliary materials on the clean work surface † Wash hands before preparing the material † Close doors and windows † Take off woolen clothing, tie, scarf, wrist watch, and jewellery † Place the infusion pole in position † Clean the work surface † Material needed: – stay†safe® system in outer wrapper, preheated Peritoneal dialysis (PD) is in widespread use for the treatment of acute and chronic renal failure. A considerable amount of knowledge about the various procedures and problems associated with this form of treatment has accumulated over recent years, particularly since the introduction of continuous ambulatory peritoneal dialysis (CAPD).
