Bergerud, C. (2012). The top 10 challenges to effective cost controls. Paper presented at PMI® Global Congress 2012—North America, Vancouver, British Columbia, Canada. Dear all, I am looking for the following functionality, and I am wondering, if there is a trick to achieve it some how with MS Project. If not, are there any other tools, which can do it? More than 16,000 project leaders trust Aconex for visibility, control, reduced risk, and connected teams. Drive process efficiency for design and construction coordination, project controls, and field management, and get fast ROI with Aconex construction management software that is easy to use and deploys in days. Our Staff. Our staff of over 60 professionals have extensive U.S. and international experience on large, complex, grass roots, revamp, and reconstruction projects incorporating conventional-phased, fast-track, or EPC turnkey concepts.
