

Download Teradata Utilities Guide

Teradata Corporation is a provider of database and analytics-related products and services. The company was formed in 1979 in Brentwood, California, as a collaboration between researchers at Caltech and Citibank's advanced technology group. The company was acquired by NCR Corporation in 1991, and subsequently spun-off again as an independent public company on October 1, 2007. This course will introduce the participants to work with Teradata. The course will cover in detail about Teradata Architecture, Indexing mechanism and how data is stored and retrieved. It will cover basic and advanced SQL operations in Teradata. It will also cover various utilities provided by ...Teradata Studio Express provides an information discovery tool that retrieves data from Aster, Teradata, and Hadoop Database systems and allows the data to be manipulated and stored on the desktop. The latest software available for download here is Teradata Warehouse Miner 05.04.04 Express Edition. This is a complete version of the Teradata Warehouse Miner product set, without an evaluation time limit, however, it is limited in use to up to 40 GB of "connected" data.
