

Download Way Of The Warrior The Philosophy Of Law Enforcement

About the Author. Gerald W. Garner is Chief of Police of the Greeley Police Department (Colorado). He is a 36-year veteran of law enforcement, having commenced his policing career as a patrolman at the Victoria, Texas Police Department in 1969. Law enforcement in the United States is one of three major components of the criminal justice system of the United States, along with courts and corrections. Although each component operates semi-independently, the three collectively form a chain leading from an investigation of suspected criminal activity to the administration of criminal punishment. Our section on Corruption and Misconduct focuses on an insider's view of corruption and misconduct in law enforcement. In this section, we list state and local police officers who have written books on ethics in criminal justice; specifically law enforcement and policing. Law enforcement is a dangerous profession and survival is often predicated on preparation and survival tactics. This is especially true when approaching a building, as the officer is typically unaware of what is going on inside and the potential dangers within.
