

# Download Worksite Health Promotion 3rd Edition

Sudden Unexpected Death of an Infant (SUDI) is any infant death that is unexpected and initially unexplained. Frequently, the cause of the death is determined after a thorough investigation and autopsy by a medical examiner and coroner. Join more than 240,000 subscribers who rely on QuickTakes for information about workplace safety and health. QT is free and distributed twice monthly. Occupational safety and health (OSH), also commonly referred to as occupational health and safety (OHS), occupational health, or workplace health and safety (WHS), is a multidisciplinary field concerned with the safety, health, and welfare of people at work. These terms also refer to the goals of this field, so their use in the sense of this article was originally an abbreviation of ...
